 Ichthyosis status: Carrier (Optigen 11-7382)

LeeAnne is one of the Turbo Trilogy sisters, along with Dixie and Daisy. Lee Anne is a Boomer baby; Sire: FC AFC FTCH Can OTCH TNT's Explosion UD FDHF OS, Can FDHF ODHF. LeeAnne loves to retrieve and has a great deal of field drive. LeeAnne is the biggest/broadest of the three sisters weighing over 70#. LeeAnne is medium to light in color with light highlights and dark pigment. LeeAnne and Copper should produce competitive golden retrievers, while expecting a wide range of colors within the litter. This litter will be raised by Kathy Crawford and visit our pool for weekend water socialization, training and duck wing exposure. This litter is due around 10/12/13 and be ready for homes in early December 2013.

"Copper" is a three time Master National Finalist. He is a dark golden who weighs in at 60# when in competition or during the hunting season. Copper is a personable dog, who gets along with every one both canine and human. In training, testing or trials, he is a team player eager to please. He has proven himself on numerous hunting trips for ducks, geese and pheasants in the Dakotas, Canada and Arkansas. At home he is a relaxed companion content to just "hang out" with the family. Copper's offspring are competing successfully in hunt tests, agility and obedience trials. Copper's father "Yukon" earned a MNH and is a member of Master National Hall Of Fame. Copper lives and trains in Wisconsin and comes to us in a frozen package for this frozen semen surgical insemination breeding. Little did Copper know but this breeding happened on his birthday.
